BUDGET ESTIMATES

OF THE

MYSORE DISTRICT

TOWN AND MINOR MUNICIPALITIES

FOR THE YEAR 1920-21

V Sangha Fees

OFFICE OF THE DEPUTY COMMISSIONER, MYSORE DISTRICT

Dated, Mysore, the 9th December 1920

READ—

The budget estimates of the several Minor Municipal Councils in the Mysore District for the year 1920-21 received from the Presidents of the Councils concerned

Order No Per 25 *L. B of* 1920-21 *dated the 14th December* 1920

1 The estimates proposed by the Several Municipal Councils are sanctioned subject to remarks and modifications noted in Appendix A

2. The items of charges detailed in Appendix "B" are retained subject to the previous sanction of Government being obtained before utilising the provisions.

3 *Receipts* —The estimates have not been framed by the majority of the Councils in conformity with the budget rules. Unless the budgets are prepared with sufficient care and attention heavy work will be thrown upon the office establishment in the matter of scrutinising them and there will be delay in sanctioning the estimates.

(*a*) All the Municipal Councils except the marginally noted Councils have made provision under "Oil Mill Tax" though the levy of this tax has been abolished with effect from 1st July 1919 in Government Order No. R 5491-508 L B 47 12-1 dated the 11/19th September 1919

1 Mandya.
2. Nagamangala.
3 Krishnarajapete.
4 Talakad
5. T Narasipur
6. Mugur
7 Ramanamadra.

(b) The Municipal Councils of Hunsur Malavalli and Gundlupet have made provision under "Public Debt Head" Such provisions are not necessary The attention of the Councils is drawn to the remarks made in the matter in the budget order for the 1919-20

(c) The Municipal Councils of Saragur, Talakad and Mugur have provided for income under "Octroi" As observed in the last year's budget order, such provisions should not be made before the levy of the tax is sanctioned by Government

(d) The large provisions made under "Taxes on buildings" by the Municipal Councils of Mandya, Malavalli, Gundlupet, T Narasipur and Mugur have not been explained. The excess over the sanctioned grants for 1919-20 and the actuals for 1918-19 should have been explained

(*e*) The Municipal Councils of Mandya (Rs. 1,000) Maddur (Rs. 1,500) Saligrama (Rs. 1,000) have as usual provided under 'Sale proceeds of lands with the hope that the expected income would be realised by the sale of sites in the proposed extensions of these towns As no definite programme has yet been laid down in the matter of forming extensions, such extraordinary provisions are not necessary

(*f*) The Municipal Council of Krishnarajpet has provided a sum of Rs. 50 under "Profession Tax This is omitted as the levy of the tax has not been sanctioned by Government

(*g*) The Municipal Council of Gundlupet estimates an income of Rs. 88 under "Interest on investments." As no investments have been made by the Council this provision should not have been made.

4 *Opening balance* —The Municipal Councils of Heggadadevankote Saragur and Yedatore have again not worked out their respective balances. The omission should be explained by the Presidents concerned and avoided in future.

5 *Expenditure* —The Municipal Council of Periyapatna has provided a sum of Rs. 15 under "Veterinary Hospital" where then is no such an institution at the place. The Municipal Council of Hunsur has provided Rs. 6 under A I (2) Stationary This is not necessary when separate provision is made for office contingencies. The Municipal Council of Hunsur has made provision under "D

Public Works for the entertainment of a Sanitary Maistry It is to be remarked that this is not the proper budget head for making such provisions The Council has now a Sanitary Inspector The question of doing away with his services is still under correspondence It it hould be finally decided by the Council that a sanitary Inspector s post is not necessary for the Municipality the present incumbent should be provided for otherwise In these circumstances suitable provision is made for the pay and allowance of the Sanitary In pector

Again this Council has provided a sum of Rs 100 under A Miscellaneous contribution to State Funds without any explanation for this provision The Municipal Council of French Rock has provided a sum of Rs 50 under Water Supply and maintenance charges for boiling out water in the well This is not the proper budjet head The provision should have been made under D Public Works The Municipal Council of Malavalli has provided Rs 100 under E 3 *(d)* Ayurvedic and Unani Dispensaries when no such institution exist

6 The provisions under Medical Relief have been altered or modified according to the particulars furnished by the Senior Surgeon The Provision on account of Plague and Cholera charges have been made in accordance with the statement received from the Sanitary Commissioner

7 *General* —Some of the Councils have merely repeated the budget grants for 1919 20 under Revised estimates for 1919 20 while others have left the column blank A few Municipal Councils have furnished budget statement E although there are no variations in the scale of establishment The total expenditure exceeds the total Estimated income in the case of almost all the Municipal Councils The Gundlupet Municipal Council in particular has provided for a total expenditure of Rs 12 926 while the estimated income for the year is only Rs 6730 This clearly shows that neither the President nor the Vice President took any pains to scrutinise the figures and examine the financial condition before framing their estimates of expenditure This is a very important matter and requires very careful attention on the part of the Presidents The opening balance should not ordinarily be utilised and there should be left one fourth of the estimated income for the year of the budget in order to have the prescribed minimum balance

The provision under D Public Works are excessive in the case of several Municipalities and the large lapses during 1919 20 and 1918 19 do not warrant such large provisions It is not also clear whether according to the standing orders of Government the estimates for the works from which provisions are made are ready This information should invariably be furnished in future budgets

The estimates as revised and sanctioned stand as follows The opening balances as given by the Municipal Councils concerned have been adopted, the Presidents being responsible for their accuracy
